

## Color Pop iPad Case

Skill Level: Beginner

Make this stylish case to protect your iPad. This is a quick and easy project. Sample used fabrics from Spotlight.

### Fabrics Needed

Fabric

1 fat quarter each of three coordinating fabrics

Lining

1 fat quarter

### Materials Needed

Legacy L-SF101 Cotton Woven Fusible

2 meters

Legacy L-987 Fusible Fleece White

1 meter

Velcro®

10cm (4")

Thread

### Tools Needed

Sewing machine and related supplies

Rotary cutter and related supplies

## Instructions

Use 1/4" seam allowances throughout.

### Step 1. Cutting Instructions

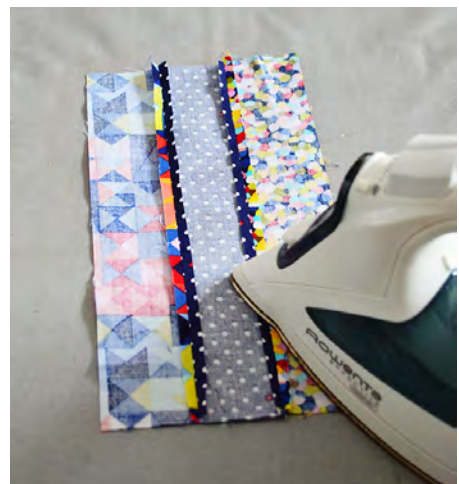

Three coordinating fabrics	Twelve 2" x 11" strips total One 2" x 10-1/2" strips each
Lining	Two 9" x 11" rectangles One 5" x 10-1/2" rectangle
Cotton Woven Fusible	Four 9" x 11" rectangles Two 5" x 10-1/2" rectangles
Fusible Fleece White	Two 9" x 11" rectangles One 5" x 10-1/2" rectangle

Step 2. Arrange the 2" x 11" rectangles of coordinating fabrics into two sets of six each as desired. Sew the rectangles together along the 11" side to create two 9-1/2" x 11" rectangles for the case exterior. Arrange three 2" x 10-1/2" rectangles of coordinating fabrics as desired and sew together to create the flap exterior.

Step 3. Press all seams open.

Step 4. Place the fusible side of one 9" x 11" Cotton Woven Fusible rectangle against the wrong side of one pieced exterior rectangle and fuse following manufacturer's instructions. Repeat this step with the Fusible Fleece. There will be excess fabric along one side.

Step 5. Trim rectangle to equal 9" x 11". Repeat Steps 4 and 5 for second pieced rectangle. Quilt rectangles as desired.

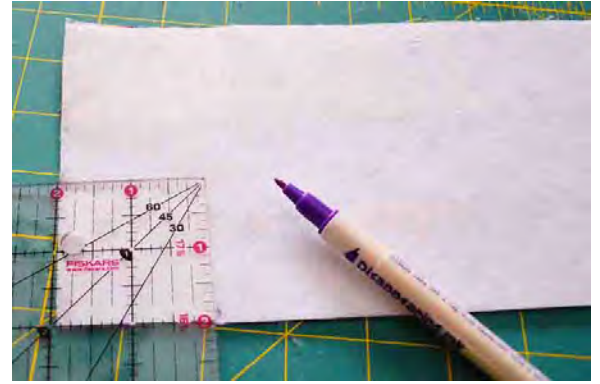

Step 6. Place the fusible side of one 9" x 11" Cotton Woven Fusible rectangle against the wrong side of one 9" x 11" case lining rectangle and fuse following manufacturer's instructions. Repeat this step for the second case lining.

Step 7. Place the fusible side of one 5" x 10-1/2" Cotton Woven Fusible rectangle against the wrong side of the flap exterior and fuse following manufacturer's instructions. Repeat this step with the Fusible Fleece. Quilt flap as desired.

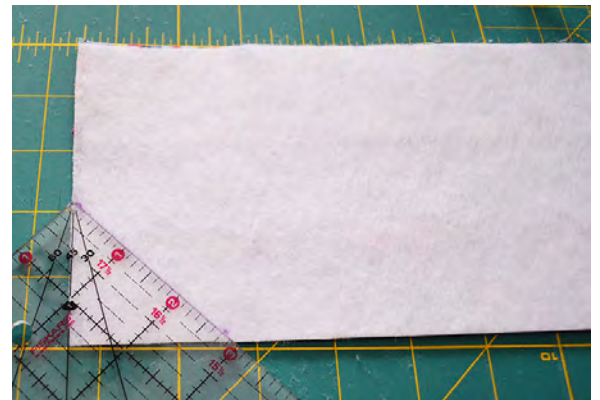

Step 8. Place the fusible side of the remaining 5" x 10-1/2" Cotton Woven Fusible rectangle against the wrong side of the flap lining and fuse following manufacturer's instructions.

Step 9. On each corner of one long end of the flap exterior, measure 2" in and 2" down and mark both.

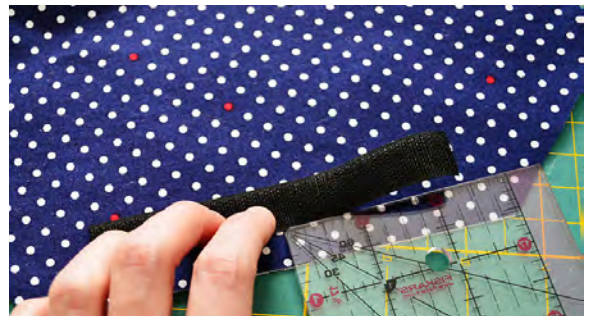

Step 10. Draw a line connecting the two marks.

Step 11. Cut along the drawn line. Repeat Steps 9 through 11 for flap lining.

Step 12. Center the hook side of the Velcro® 1/2" in from the shortened bottom edge on the right side of the flap lining. Stitch with a zigzag stitch to secure.

Step 13. Center the loop side of the Velcro® 3" from the top long edge on the right side of the front exterior rectangle. Stitch with a zigzag stitch to secure.

Step 14. Place the flap exterior and lining right sides together. Stitch around three sides, leaving the 10-½" side open. Clip corners.

Step 15. Turn right side out. Push out corners. Press. Topstitch if desired.

Step 16. Place the exterior rectangles right sides together. Stitch around three sides, leaving the long side with the Velcro® open. Clip corners. Turn right side out. Push out corners. Press.

Step 17. Place the lining rectangles right sides together. Stitch around three sides, leaving a 3" gap on one long end and other long end open. Clip corners.

Step 18. Place the case exterior inside the case lining with right sides together, aligning the corners. Slip the flap in between the exterior and the lining on the side opposite the side with the Velcro®. Pin around entire top opening and sew.

Step 19. Turn case right side out through the opening in the lining. Sew the opening closed and push lining into case. Topstitch around opening if desired.
